

“Enforcement: What Every Clean Water Agency Should Know,” Developments in Clean Water Law: A Seminar for Public Agency Attorneys and Managers

Speaking Engagement
November 19, 2010
Santa Fe, NM

Contact

Lori Terry Gregory

Hosted by the National Association of Clean Water Agencies
(NACWA)

An enforcement action is something no clean water agency wants to go through, but something every clean water utility should be prepared for. This panel will present important legal information valuable to both clean water attorneys and managers related to enforcement issues, including an overview of current clean water enforcement developments and a discussion of the role of citizen suits in enforcement actions.
