Diana S. Shukis

With the recent increase in demand for legal services, Foster Garvey's co-chair, Diana Shukis, shared an update on the firm's recruitment strategies with the Mid-Market Report. Over the last six months, the firm has welcomed six new attorneys in addition to three, strategic professional staff hires in marketing and business development, human resources, and legal talent and professional development. While increasing attorney ranks across all the firm's offices remains a top priority, so does ensuring each member of the team is fully supported with a wide range of professional services.

Drawing a direct line to Foster Garvey's stellar financial success, Ms. Shukis stated such strengths created "an opportunity to reinvest in the firm." The author of the article, Dylan Jackson, underscored the benefits of such investments, writing, "Firm partners may be best served looking toward the future."
