

Greenbaum Attorneys Co-Author 2024 Edition of “New Jersey Condominium and Community Association Law” Treatise

November 29, 2023

Greenbaum, Rowe, Smith & Davis LLP is pleased to announce the publication of the 2024 edition of “New Jersey Condominium and Community Association Law” (Gann Law Books). The book, co-authored by firm attorneys **Wendell A. Smith**, **Dennis A. Estis** and **Christine F. Li**, is a practical guide to assist condominium and other common interest communities, attorneys and other professionals, as well as lay persons.

The latest edition of this popular treatise includes revised Master Deed and By-law Provisions, as well as an update on related New Jersey case law. The publication contains a detailed discussion of the legal, financial, and marketplace requirements imposed on developers and the consequences of these requirements for lenders and individual unit purchasers. By means of a point-by-point treatment of the provisions of a master deed, by-laws and other critical documents, the book highlights solutions to problems frequently encountered in the creation and administration of common interest projects. It includes statutes, regulations, sample documents and discussions of significant cases.

Mr. Estis, a partner in the firm’s Litigation Department and Co-Chair of the Construction Disputes Practice Group, concentrates his practice on condominium and community association law and complex commercial litigation, with a particular focus on construction law, public entity law and alternative dispute resolution. His practice also encompasses real estate and business disputes and general equity matters. He is a Fellow in the Litigation Counsel of America, the American Bar Foundation, the College of Community Association Lawyers, the National Conference of Bar Presidents, and the Construction Lawyers Society of America.

Ms. Li, a partner in the Real Estate Department, chairs the firm’s Community Association and Planned Real Estate Practice Groups. She focuses her practice in real estate, with a concentration in planned real
