

Counseling and Transactional

Laner Muchin attorneys are dedicated to providing our clients with practical and timely advice on critical issues including counseling on terminations and other employee actions, guiding our clients through audits and transactions, conducting corporate investigations on a broad spectrum of issues, developing legally-compliant compensation programs, preparing employment agreements, developing strategies to avoid unfair competition, among many other services.

Many of our attorneys in this practice have worked with our clients over many years, sometimes on a near-daily basis. Our attorneys understand that legal expertise is just the starting point into developing a strong partnership with our clients.

We understand that addressing a risk management issue, without addressing underlying practical concerns, is of limited value to employers. What sets us apart is we take the time to understand the unique business challenges our clients face and craft practical solutions that not only address legal concerns, but address our client's short and long-term business goals.
