## icos & token types: sec issues

---

*MSK Client Alert*

May 30, 2018

ICOs, CVCs, and Hard Forks – a lot of attention has been given to issues surrounding the SEC. MSK is launching a video blog series that will not only dive in to this important topic but also tackle tax, corporate, accounting, and FinCEN issues for both Issuers and Investors, all of which can affect the viability of ICOs today and tomorrow. In this first video, we focus on SEC issues related to security Tokens and utility Tokens.
