# navigating privacy in an interconnected world: hot topics, including the gdpr

---

Panel will be at MSK's Los Angeles Office | Mixer will be at Butcher's Dog

April 19, 2018

6:30-9:30 PM (PT)

Event Sponsor: Brooklyn Law School Southern California Alumni Network

**Aaron Wais** will be speaking on the panel, "Navigating Privacy in an Interconnected World: Hot Topics, Including the GDPR," at a special co-sponsored CLE presentation with Brooklyn Law School Southern California Alumni Network on April 19th.

**Speakers:**

**Kristine Holm**, Privacy Counsel, 21st Century Fox

**Leanne Mouw**, Vice President, Senior Corporate and IP Counsel, Macerich

**Elvis Stumbergs**, Counsel, Office of Privacy, Sprint

**Aaron Wais**, Partner, Mitchell Silberberg & Knupp LLP

**Details:**

**6:30-7 PM** | Registration at MSK offices | 11377 W. Olympic Boulevard, Los Angeles, CA 90064

**7-8:00 PM** | Panel Presentation at MSK offices | 11377 W. Olympic Boulevard, Los Angeles, CA 90064

**8-9:30 PM** | Drinks and Light Fare at Butcher's Dog | 11301 W. Olympic Boulevard, Los Angeles, CA 90064

**Summary:**

*It has almost become trite to point out that the world is connected like never before but this does not negate the truth of the statement. You use your smart phone to start your smart dishwasher and pay your bills online. As you walk to your business (a small clothing boutique in the mall, next to the Amazon book store) the ads change just for you and inform you about the next summer blockbuster. Your online business is booming and you just shipped some goods to a customer in France.*

**practice areas**

corporate & business transactions

cybersecurity and privacy

entertainment transactions

intellectual property

start 'n knupp

video game

## navigating privacy in an interconnected world: hot topics, including the gdpr

---

*At every step of your journey, privacy issues are implicated. This panel will bring together privacy professionals from a diverse cross-section of industries to explore and discuss how to navigate privacy in an interconnected world, including the considerations faced by online companies versus brick-and-mortar; how new technology is changing the ways people think about privacy; and best practices for collecting and securing personal data, particularly with the impending GDPR regulation coming out of the European Union.*

*\*1 hour of CLE credit will be offered for CA*
