## 2021 sia education at isc west

---

July 19, 2021

MSK partners, **Les Gold**, **Su Ross** and **Tony Adler** will be leading the session titled, "Cyber Security, Consumer Privacy Acts, Intellectual Property, COVID-19 And Other New Headaches in Merger and Acquisition" on July 19, 2021. This session is on the first day of the 3-day SIA Education at ISC West event.

About the session:

There have been many new laws and regulations adopted by local, state and federal authorities which affect security companies. These regulations impact privacy, intellectual property and other areas which may involve security companies when they are looking to either buy or sell the company. Buyers must beware and sellers prepared. Therefore, due diligence by both becomes exceedingly important. This presentation will identify due diligence which should be engaged in by buyers to determine whether seller's company is in compliance with current rules and regulations and for sellers to make certain that they are in compliance when contemplating a sale of their company.

Learning Objectives:

■

Learn and understand what is necessary in preparation for the sale of the business to make sure there is no potential legal liability or exposure after sale of the business.

■

Properly prepare his or her business for sale.

■

Understand if a seller has properly conducted the business to comply with new privacy laws.
