## cobra subsidies under the american rescue plan (online course)

---

June 4, 2021

**Robert Lowe** will be teaching an online training course on the Lorman education platform, about the new rules applicable to subsidized COBRA benefits under the just enacted American Recovery Plan Act (ARPA) of 2021.

This course will explain who is eligible for the subsidized benefits and how employers can obtain the subsidy. The material will also discuss the latest Department of Labor guidance on the suspension of COBRA and other deadlines. The subsidized COBRA rules were effective April 1, 2021, so employers have very little time to comply with the new law.

Certificate of completion will be provided.
