**Andrea Cataneo** is a partner in MSK's Corporate & Business Transactions Practice Group in the firm's New York office, and a member of the Capital Markets & Securities and Crypto Assets & Blockchain Technology teams as well.

Andrea's practice focuses on preparing companies for capital raises, structuring secured and unsecured equity and debt financing transactions for early and late stage companies, and taking private companies public via self-registration statements and IPOs. Additionally, through her extensive relationships in the investment banking community, Andrea offers her clients introductions to targeted sources of capital.

**Brian Haugli** has been driving security programs for two decades and brings a true practitioner's approach to the industry. He creates a more realistic way to address information security and data protection issues for organizations. He has led programs for the DoD, Pentagon, Intelligence Community, Fortune 500, and many others. Brian is a renowned speaker and expert on NIST guidance, threat intelligence implementations, and strategic organizational initiatives.
