

cyber security, "the new wild west"

Santa Monica, CA

October 28, 2015

9:15 am

Aaron Wais will be speaking on "Cyber Security, 'The New Wild West'" at the TAG Alliance Conference in Santa Monica on October 28, 2015.

Every day, headlines are filled with stories of data breaches and hacking scandals. During this joint session, Aaron will discuss data security laws with a focus on the U.S. President's proposed legislation of February 27, 2015, to protect consumer data that has been collected and used by private companies. Additionally, he will discuss data security laws of other countries and what companies should be aware of when they do business abroad.
