Exploring the Intersection of Metaverse, Artificial Intelligence and Copyright

An explanation of how copyright law intersects with these emerging technologies. After completing this session, participants will be able to:

- Leverage copyrights in the metaverse
- Identify legal challenges posed by the metaverse
- Assess the potential conflicts posed by using copyrighted work to train AI models
- Review the issues arising from works jointly created by humans and AI and those created by AI alone

Eric Goldman, Daryl Lim, Ranjini Acharya, Marta Belcher, Eleanor M. Lackman
