# ai deconstructed: ip, privacy and employment law

---

March 27, 2024  
10:00am-11:00am PST

Over the past year, as Generative Artificial Intelligence has dominated daily headlines, both the technology and the ensuing legal questions have rapidly evolved.

Join us on **March 27th** at 10:00am Pacific/1:00pm Eastern as **Mark Humphrey**, **Lucy Holmes Plovnick**, and **Jonathan Turner** discuss AI at the intersection of intellectual property, privacy, and labor & employment law.

The multi-disciplinary panel will address the current state of the law on the ownership and protection of AI-generated works, pending litigation updates, key privacy and data security issues for companies, labor & employment matters such as using AI for workforce management and the outcome of the recent entertainment industry guild agreements, and more.

The Zoom link for the program is available upon registration.

**Click here** to register.
