

msk corporate practice closes acquisition transaction for client total recall

May 4, 2016

MSK is pleased to announce its Corporate & Business Transactions practice has successfully closed the transaction for the acquisition of its client Total Recall Corporation by Converjint Technologies. MSK attorney Carl Kleidman was successful in leading this transaction for Total Recall, a corporation that has been providing federal and municipal governments, businesses, and organizations with surveillance solutions and large-scale systems which operate under the harshest urban conditions for over 30 years. This acquisition extends Converjint's capabilities in supporting highly sophisticated citywide networks and gives Total Recall the additional resources it needs to expand and grow.

We are very happy to have assisted the three founders in realizing an excellent financial return for their business and the opportunity to continue to participate in the growth of the business in the future.
