Mitchell Silberberg & Knupp LLP has been named a "Diversity Leader" by *Profiles in Diversity Journal* on November 14, 2017. The full article highlighting MSK's diversity efforts was published on January 8, 2018.

Per *Profiles in Diversity Journal's* press release:

Profiles in Diversity Journal is pleased to announce the organizations selected to receive the publication's 10th Annual Diversity Leader Award. The companies and individuals whose efforts will be recognized in the upcoming issue (Winter 2018) view challenges and opportunities through the lens of diversity and inclusion, as a means to achieving business success.

Organizations selected as diversity leaders employ the expertise of their diversity team members to help them meet the evolving needs of today's business environment. In these organizations, the work of the diversity officer is viewed not as a series of programs, but as a strategy for change.
