## msk recognized among best firms for minority attorneys by *law360*

---

July 7, 2019

*Law360* has posted its "2019 Diversity Snapshot" and has listed Mitchell Silberberg & Knupp LLP (MSK) among the top U.S. law firms for minority attorneys.

In the category of firms with 50-149 lawyers, MSK was ranked within the top ten law firms in the country.

From the article...

"For the ranking, *Law360* grouped firms based on their U.S. attorney head count in order to evaluate their diversity as compared with similarly sized peer firms. Any firm that had a below average minority representation at any level was excluded from our ranking. The remaining firms were ranked according to the percentage of minority attorneys at the nonpartner and partner level. Firms were required to disclose the diversity of their equity partnerships in order to be eligible for the ranking.

For the largest firms on the list, attorneys of color make up nearly 23% of nonpartners and nearly 11% of partners. At the smallest firms, several law firms reported that more than 40% of nonpartners and more than 30% of partners were attorneys of color."
