

msk highlighted for supporting valnet's gaming 4 good campaign

Hardcore Gamer

September 16, 2025

Hardcore Gamer reported on Valnet's launch of the Gaming 4 Good campaign, an initiative providing hospital-safe gaming consoles to children undergoing treatment in select U.S. hospitals. The campaign, run in partnership with Starlight, aims to ease stress and bring joy to pediatric patients by giving them a safe way to play, connect with others, and experience a sense of normalcy during their hospital stays.

MSK is proud to support the campaign with a \$5,000 donation, funding one of the hospital-safe gaming consoles that will positively impact children in need. The campaign encourages further contributions from the community to expand the reach of this initiative and bring the comfort of gaming to even more young patients.
