MSK is pleased to announce that Jeffrey Eisen was named to *The Hollywood Reporter's* "Power Lawyers: Troubleshooters" list, published on October 23, 2024.

From the article...

"Death and taxes may be inevitable, but Eisen's firm — which has represented the estates of everyone from Marilyn Monroe to Irving Berlin to Albert Einstein to Elvis — does its best to make both go as smoothly as possible. He's currently negotiating the ongoing deals over the use of Muhammad Ali's likeness, name and image, as well as the legal entanglements of a certain recently deceased can't-be-named A-list musician whose estate got snared in an IRS audit."
