MSK partner, Adam Levin was quoted in the article, "Frances McDormand Oscar Speech Sparks Interest in Inclusion Riders," published by *Variety* on March 5, 2018.

From the article..

"Kalpana Kotagal, one of the lawyers behind the inclusion rider, wasn't awake to see the project she'd been laboring on for months become a trending topic on social media.

The initiative got a high-profile plug during the Oscar broadcast on Sunday when best actress winner Frances McDormand urged viewers and the assembled Hollywood luminaries to embrace a legal effort to push for greater on-screen diversity. That's good news for Kotagal and the other lawyers and advocates who have been taking meetings at talent agencies and studios to help popularize the concept. The only downside was McDormand's speech came toward the end of a nearly four-hour broadcast."
