From our earliest days on the lot of Columbia Pictures to our journey west down Olympic Boulevard, and onto our 2019 move into Century City, MSK has maintained its headquarters in Los Angeles. Being close to the entertainment industry, to which our roots are deeply embedded, created a platform on which to expand over the years as the firm grew in relevance to industries like defense, fashion, life sciences, and technology, with many headquartered in Los Angeles. In recent times, our close proximity to Silicon Beach has afforded an ability to serve the burgeoning worlds of digital media and interactive entertainment, keeping us relevant and convenient to those we serve in areas of intellectual property, corporate, immigration, regulatory, tax, trusts & estates, and labor & employment.
