

Chemical

We provide clients in the chemicals sector with practical and effective legal support. Our clients range from emerging companies to large chemical companies. Our in-depth experience, gained by working across business areas and issues with chemical companies and networking with industrial organizations, provides our attorneys with insight into legal and regulatory challenges facing the industry.

Our dedicated team of attorneys tracks and follows developments in the chemical industry, including mergers & acquisitions, divestitures, litigation and regulatory developments.

Our group is comprised of attorneys from across the firm's practices. These attorneys are experienced in dealing with the issues affecting the chemicals industry, including transactions, environmental and regulatory matters, dispute resolution, antitrust and competition, risk management, investigations and compliance, government and cross-border trade, and intellectual property.

We operate 12 offices across the Midwest in Appleton, WI; Chicago, IL; Crystal Lake, IL; Indianapolis, IN; Milwaukee, WI; St. Charles, IL; Brookfield, WI; Columbus, OH; Green Bay, WI; Rockford, IL; and St. Louis, MO. While our brick and mortar presence is regional, we resolve legal issues throughout the U.S. and internationally.

Experience

Lead Counsel to a Chemical Manufacturer in the Discharge of a Union-Represented Employee

Serves as Outside Counsel for Client's Patent Matters

Served as Outside Counsel for Patent Drafting and Prosecution in Petroleum Refining and Petrochemical Production
