

Franchising

The common goal of all franchising activity is to provide consumers with consistently uniform goods and services. Amundsen Davis helps clients reach this goal by assisting in all steps of the process, whether they are franchising an existing business as a franchisor, purchasing a franchise as a franchisee, or dealing with the day to day operations of running a business.

From the initial decision to franchise and the filing of disclosure documents, to managing employment issues and protecting franchise trademarks, our attorneys are equipped to assist franchise owners in any industry. We understand the wide variety of disclosure laws imposed by the Federal Trade Commission and individual states, and provide clients with sound guidance and insightful counsel. We also understand the risks and challenges of owning a franchise and defend owners against claims, as well as help them mitigate risk.
