

2018 Law & Technology Conference

Speaking Engagement

Milwaukee Bar Association & AIIM Wisconsin; Milwaukee, WI
November 30, 2018

With the increasing number of reported data breaches, having the best practices in place to protect businesses and individuals is becoming a priority. The Milwaukee Bar Association has partnered with the Association for Information and Image Management (AIIM) to gather leading professionals in the technology and legal industries to address timely topics related to security breaches, cyber insurance, artificial intelligence and ethics and technology.

The keynote speaker for this year's conference will be Byron Franz, Special Agent for the U.S. Federal Bureau of Investigation.

Andrew Skwierawski will be moderating a panel discussion on how to respond to a security breach and will also present the top 25 tips, tricks, tools and sites for 2018 and beyond. Andrew will be joined by Jeffrey S. Krause of Affinity Consulting Group and Catherine Sanders Reach of the Chicago Bar Association.
