

Fighting Cybercrime and Meeting Your Cyber Security Challenges in 5 Steps

Seminar; Chicago, IL
October 30, 2019

Cyber crime targeting businesses is on going and continues to be a major concern. Learn how five steps can build awareness and an action plan to deter cyber criminals and help avoid the problems that could destroy a business in this workshop presented by John Ochoa. This presentation uses the latest information about hackers and data breaches to educate businesses on how to protect themselves. Better Business Bureau teamed with National Cyber Security Alliance and National Institute for Science & Technology, along with local cyber security experts to create a scale-able program that any size company can use to create an individualized cyber security program. This workshop is in recognition of National Cyber Security Awareness Month.
