

Marijuana in the Workplace

Clear Law Institute, Webcast

March 24, 2020 | 3:00 PM - 4:15 PM ET

Are you unsure on how to handle marijuana in the workplace? Marijuana may be legal in some states, but it is not legal under federal law. Employers need to protect themselves, their employees, and their customers.

Clear Law Institute sponsors this practical webinar where Heather Bailey presents on the important issues of handling both employee medical marijuana users and employee recreational marijuana users. You will learn how to create and implement processes for your employees who use marijuana for a medical condition. This course is specifically for employers with safety-sensitive positions. Upon course completion, you will be able to describe:

- No tolerance policies
- Proper drug testing policies
- How to handle employees who report to work while under the influence of marijuana
- How to remain in compliance with the Americans with Disabilities Act for employees who use marijuana for a medical condition

Attendees can register and receive a 35% discount by using the promo code: HBAiley286712.
