

Trying to Put a Finger on Data Privacy Issues: Biometrics – A Headache for Illinois Companies

Illinois Chamber of Commerce; Webinar
April 12, 2018 | 1:30 PM - 3:00 PM

As employers implement cutting edge security systems or sophisticated ways to register compensable time worked, additional steps must be taken to ensure that an employee's highly-sensitive, personal data is appropriately protected.

In this webinar "Trying to Put a Finger on Data Privacy Issues: Biometrics - A Headache for Illinois Companies" hosted by the Illinois Chamber of Commerce, co-presenters Molly Arranz and Julie Proscia will discuss new and improved technologies and how to secure employee's personal information.
