

URGENT WEBINAR: Employers' Survival Guide Under Gov. Pritzker

Illinois Chamber of Commerce, Webinar
December 13, 2018 | 10:30 AM - 12:00 PM

Elections have consequences! Serious consequences. And, for Illinois based employers, particularly in the private sector, your ability to operate is about to get really complicated. From increasing the minimum wage, to paid leave entitlements, the Pritzker administration is going to be aggressively pro-labor when it comes to creating new workplace laws and greater regulation that this State has (believe it or not) yet to experience.

During this 90-minute webinar, Employment Law & Litigation Committee Chairman, Jeff Risch, will provide practical advice and guidance to employers on what should be their top priorities in bracing for the wave of new laws and tighter workplace regulation.
