

\$1.9M Property Sale Navigated Amid SBA Compliance Requirements

Amundsen Davis helped our property management client coordinate the \$1.9 million sale of a property to a company planning to start renovations before finalizing the sale. This added complexity to the deal as the transaction needed to comply with strict Small Business Administration (SBA) requirements to ensure the timely payoff of both a term loan and an SBA loan. A broker facilitated the sale, coordinating the interests of all parties involved.
