

Handled Matter Involving Alleged Sexual Assault by a Hotel Security Staff Employee

Litigator Margaret Firnstein handled a matter involving the alleged sexual assault of a female hotel patron by a hotel security staff employee. Allegations focused on the negligent hiring of the security guard, including failure to conduct a background check. Other allegations focused on the building's negligent security rules which allowed the security guard to respond to the plaintiff's complaint of no air conditioning without another hotel employee allegedly knowing that the guest was intoxicated.
