

# Have Counseled a National Motor Carrier on its Corporate Structure, Operations and Risk Mitigation

We have counseled a national motor carrier on its corporate structure, operations and risk mitigation. To better protect the company we counseled the Board of Directors on risk exposures, legal issues within the injury and alternative corporate structures. We have counseled the company on designing its insurance program to save on expense and increase protection for the company. We have trained its staff on brokerage and 3PL operations, claims management and best risk mitigation procedures.
