

Edna McLain Quoted in ED Management Article Regarding Test Order Mistakes in ED Malpractice Claims

Media Mention
ED Management
September 2021

ED Management published an article, "Test Ordering Mistakes Are Issue in Most Diagnosis-Related ED Malpractice Claims," where they found that the top reason for ED malpractice claims is diagnosis-related and most involve a test ordering issue. Edna McLain is quoted in the article providing her feedback on common questions that come up in malpractice suits and explains why good documentation is key.
