USLAW

May 2018

We are excited to announce that this month USLAW released the updated Retail and Hospitality Compendium of Law.

The Retail and Hospitality Compendium is a convenient state-by-state reference, containing many of the most common substantive and procedural issues impacting the retail and hospitality industry.

Written by USLAW member attorneys, including our transportation team, the compendium utilizes the local knowledge in each of the jurisdictions in which USLAW firms practice.

To view the full list of USLAW compendia, addressing issues in construction and retail as well, visit the USLAW website.
