

State of Indiana General Liability COVID-19 Quick Guide

USLAW

September 1, 2020

USLAW NETWORK releases its newest compendium of law, a multi-state resource that addresses relevant state-specific general liability considerations in conjunction with the ongoing COVID-19 crisis. Written by USLAW NETWORK member attorneys, the compendium takes advantage of local knowledge and experience in each of the jurisdictions in which USLAW NETWORK firms practice.

SA partner Keith Mundrick authored the Indiana general liability COVID-19 quick guide, offering information on statute of limitations, negligence, standard of care, causation, premises liability, violation of statute/executive orders as evidence of negligence, contributory negligence, assumption of the risk, statutory cap on non-economic damages, death cases, and punitive damages, plus best practices for avoiding/reducing future liability for COVID-19 claims.

USLAW regularly produces new and updates existing Compendiums providing multi-state resources that permit users to easily access state common and statutory law. Compendiums are easily sourced on a state-by-state basis and are developed by the member firms of USLAW.
