

Protecting Inventions Relating to Artificial Intelligence: Best Practices

Intellectual Property Owners Association Law Journal
February 25, 2022

The *Intellectual Property Owners Association Law Journal* has published some very valuable new guidance on best practices for artificial intelligence. John Pienkos and Jennifer Lacroix contributed to the paper, "Protecting Inventions Relating to Artificial Intelligence: Best Practices," which includes: questions to ask inventors, the law on inventorship, drafting tips, cross border considerations, and much more.

You can read the full paper published by the *Intellectual Property Owners Association Law Journal* [here](#).
