April 9, 2021

U.S. foreign policy goals often drive U.S. trade policy. Nogsong Fonkem's article, "Why Businesses Should Pay Attention to Biden's Human Rights Centered Foreign Policy," discusses how the new administration's "human rights" focused foreign policy will affect businesses stating that it will create significant challenges to companies that engage in international trade.

You can read Nogsong's full article on the *WisLaw NOW* website.
