Special Note Regarding the FCC's Online Public File Television stations and commercial radio stations in the Top 50 Nielsen markets are required to upload the annual EEO Public File Report (PFR) to the FCC's online public inspection file. The report must be placed in the public inspection file and posted on the website belonging to each station in the SEU. (For full-power and Class A television stations as well as commercial radio stations in the Top 50 Nielsen markets, the PFR must be uploaded to the online public inspection file hosted by the FCC.)

The PFR should summarize the SEU's recruitment activity from February 1, 2016 through January 31, 2017, including full-time positions filled, the recruitment sources used to advertise those job openings, and the total number of interviewees and hires produced by each recruitment source. The PFR must also include a summary of the SEU's recruitment initiatives.

The Form 397 requires filers to identify the individual responsible for EEO matters and to submit the SEU's two most recent PFRs as attachments. Those SEUs facing the upcoming February 1 deadline must include PFRs covering February 1, 2015 – January 31, 2016 and February 1, 2016 – January 31, 2017. Once filed with the FCC, the Form 397 must be placed in the public inspection file of each station in the SEU. For stations with online public inspection files hosted by the FCC (full-power and Class A television stations and commercial radio stations in the Top 50 Nielsen markets) the FCC will automatically upload a copy of the Form 397 to the station's online public file.
